

Wednesday 22nd March 2023

Dear Parent/Carers,

I am very excited to tell you about our upcoming trip to Yorkshire Wildlife Park in Doncaster on **Thursday 11th May 2023**. This trip will act as a hook for our science and geography learning about different environments and habitats around the world. The trip will provide a memorable experience and allow the children to learn about how animals are adapted to the habitats they live in. During our time at the wildlife park, we will be visiting the different animals but will also be taking part in a workshop called "World habitats and adaptations". This will allow the children to learn about desert, polar, savannah and rainforest habitats. They will learn about how animals are adapted to survive in these different places. The session will allow the children to handle some animal artefacts and meet some live animals.
